WELCOME

YOUR STORE. YOUR BRAND. YOUR PROFIT.

You are about to begin a professional onboarding journey that equips you to launch, run, and grow your own medical cannabis storefront on the Budstacks platform — the white-label dispensary technology behind Healing Buds, LekkerWeed, and a growing network of live operator stores.

This course walks you through every decision point in becoming a Budstacks operator: choosing between outright licence ownership and the Lease-to-Own path, selecting the subscription tier that matches your growth stage, understanding the economics behind every gram sold, and launching a fully compliant, blockchain-verified storefront — without writing a line of code.

WHY THIS COURSE MATTERS

Building a compliant medical cannabis dispensary from scratch costs \$200,000–\$500,000 and takes one to three years. Budstacks removes that barrier entirely — giving you a fully built, blockchain-verified, medical-grade dispensary under your own brand, live in weeks.

The Dr Green blockchain credential that verifies your store's licence and compliance status.

OBJECTIVE

BUDSTACKS ONBOARDING 101

This course is the official starting point for becoming a Budstacks storefront operator. It is designed for complete beginners — no blockchain, cryptocurrency, or e-commerce experience is required.

Our objective is to equip you with the understanding, tools, and decision framework needed to choose the right licence path, select the right subscription tier, launch a compliant storefront, and understand exactly how your profit is calculated on every sale.

You will learn what the Budstacks platform is, how the Independent Operator Licence and Lease-to-Own Programme differ, how the three subscription tiers scale with your business, and how the Dr Green digital key keeps your store compliant and verifiable on-chain.

By the end of this course you will be able to confidently choose your licence path, select your tier, launch your storefront, and operate within the ecosystem responsibly, securely, and profitably.

OUR COMMITMENT TO YOU

-  **ZERO BUILD TIME**
Launch in weeks, not years.
-  **FULL TRANSPARENCY**
Every fee and split shown up front.
-  **YOUR PROFIT, YOUR WALLET**
Automated, on-chain payouts.

YOU WILL LEARN

- The two licence paths: Outright vs Lease-to-Own
- How the 20% profit share works, and when it disappears
- What each subscription tier unlocks
- How to set up a compliant, KYC-gated storefront
- How crypto payouts reach your wallet automatically
- Where Budstacks is expanding next

“ One payment or one lease — either way, the storefront, the compliance, and the infrastructure are already built. You bring the brand.

COURSE GOALS

The Budstacks Onboarding 101 course is designed to provide a structured foundation for understanding the licence paths, subscription tiers, economics, and compliance systems behind every Budstacks storefront. Students progressively build the knowledge required to launch and operate with confidence.

- 1 **UNDERSTAND THE PLATFORM**
Learn what Budstacks is, how it connects to the Dr Green network, and the problem it solves for aspiring operators.
- 2 **COMPARE LICENCE PATHS**
Understand the Independent Operator Licence versus the Lease-to-Own Programme, and which suits your capital position.
- 3 **CHOOSE YOUR TIER**
Explore Starter, Growth, and Full Suite subscriptions and what each unlocks for your storefront.
- 4 **MODEL YOUR ECONOMICS**
Understand margin per gram, the 20% profit share, monthly overhead, and net take-home at different sales volumes.
- 5 **LAUNCH YOUR STOREFRONT**
Walk through branding, supplier sync, KYC gating, and going live — without a developer.
- 6 **STAY COMPLIANT & SECURE**
Learn the KYC, audit-log, and encryption systems built into every store, and your responsibilities as operator.
- 7 **UNDERSTAND YOUR PAYOUTS**
Learn how crypto payments settle automatically to your wallet, and which currencies are supported.
- 8 **PLAN YOUR EXPANSION**
See where the Dr Green network is opening next, and how your store grows with it.

PROFESSIONAL OUTCOME

Upon successful completion of this course, students will be able to confidently choose between outright and lease-to-own licensing, select the right subscription tier, launch a compliant Budstacks storefront, and understand the full economics of operating within the Dr Green network.

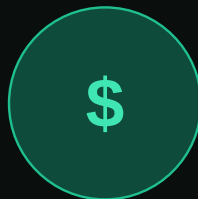

“ Knowledge is the first key. Ownership is the second. Together, they unlock the future.

CHAPTER
2.1

Independent Operator

Building a compliant medical cannabis dispensary from scratch typically costs \$200,000 to \$500,000 and takes one to three years to launch. The Budstacks Independent Operator Licence removes that barrier: a single one-time payment gives you a fully built, blockchain-verified, medical-grade dispensary under your own brand.

This path suits operators and investors who want full control from day one — no rental fee, no ongoing profit share, and no lease term to work through. You own the licence outright, permanently, the moment your storefront goes live.

AT A GLANCE

- \$10,000 one-time licence fee
- Full ownership — no profit share, ever
- 3 months free full Tier 3 access
- Launch in weeks, not years
- Platform handles sourcing, fulfilment & logistics
- Full training & operational handover

\$10,000

One-time licence fee
Everything included — launch in weeks
Zero setup costs — zero profit share, ever

WHAT'S INCLUDED

✓ Your Own Storefront

Fully branded white-label dispensary under your name.

✓ Medical-Grade Compliance

KYC, prescriptions, and audit logs built in by design.

✓ We Handle Everything

Sourcing, fulfilment, logistics — you never touch the product.

✓ Blockchain Verified

Dr Green digital key — on-chain traceability & compliance.

✓ 3 Months Free Access

Full Tier 3 platform access included — no subscription for 90 days.

✓ Keep 100% of Profit

No revenue share. No commission. Your revenue is yours.

\$10,000 vs. Building It Yourself

The table below compares the true cost and timeline of building an independent, compliant cannabis dispensary from scratch against acquiring a Budstacks Independent Operator Licence.

	BUILD YOUR OWN	BUDSTACKS LICENCE
Tech development	\$50k – \$150k	Included
Legal & compliance	\$30k – \$100k	Included
Licensing & audits	\$20k – \$50k	Included

CHAPTER
3.1

The Lease-to-Own Program

The Lease-to-Own Programme is the low-capital entry point into the Budstacks network. Instead of a \$10,000 outright purchase, you start with a \$1,500 non-refundable access fee — credited toward eventual licence acquisition — and step into a 90-day trial with full, unlimited access to the platform.

This path suits first-time operators who want to prove the model, build a customer base, and generate revenue before committing further capital. You can continue on a monthly lease indefinitely, or work toward owning your licence outright.

AT A GLANCE

- \$1,500 non-refundable access fee to start
- 90 days full unlimited platform access
- 12-month lease term, renewable
- \$169/month storefront licence rental
- 20% profit share during the lease period
- Own outright at the end — rental & profit share drop to zero

\$1,500

To get started — 90 days full unlimited access included
No web developers. No guesswork. A proven model behind you.

WHAT'S INCLUDED IN YOUR 90-DAY TRIAL

- ✓ **Your Own White-Label Storefront**
A fully branded online cannabis store — yours to customise, yours to grow.
- ✓ **Search Engine Optimisation**
We help your store get found online. More visibility means more customers.
- ✓ **Website Editing Tools**
No web developer needed — build and manage your store with intuitive tools.
- ✓ **Full Admin Panel**
Track orders, manage stock, and run your business from one dashboard.
- ✓ **Lead Generation**
Built-in tools to help you attract and convert customers from day one.
- ✓ **Hosting & Infrastructure**
Everything runs on Budstacks — fast, reliable, and fully managed.

Your Monthly Costs After the Trial

After your 90-day trial ends, you choose a subscription tier and begin paying the monthly storefront licence rental fee alongside it. The rental fee applies across all tiers for the duration of the 12-month lease.

COST ITEM	MONTHLY FEE	NOTES
Storefront Licence Rental Fee	\$169 / mo	Applies across all tiers during the lease period
Tier 1 — Starter	\$99 / mo	Launch your store
Tier 2 — Growth	\$149 / mo	Scale your audience
Tier 3 — Full Suite	\$199 / mo	Dominate your market

MAX TOTAL MONTHLY OVERHEAD BY TIER

Tier 1 subscription + \$169 rental

\$268/mo

Tier 2 subscription + \$169 rental

\$318/mo

Tier 3 subscription + \$169 rental

\$368/mo

Compare that to hosting alone on a generic platform — Budstacks includes compliance, supplier sync, and infrastructure built in.

How You Make Money

On every gram sold through your store, you work with a margin of roughly \$3–\$4. During the lease period, Budstacks takes a 20% profit share on gross sales — the cost of the platform, infrastructure, and everything that keeps your store running. Payments settle automatically to your crypto wallet.

SIMPLE EXAMPLE

Sell 1g at a \$4 margin → Budstacks takes \$0.80 (20%) → You keep \$3.20, direct to your wallet.

HOW MUCH YOU MAKE ON EVERY GRAM		
SALE PRICE / MARGIN	BUDSTACKS (20%)	YOUR PROFIT (80%)
\$3.00 / gram	– \$0.60	\$2.40
\$3.50 / gram	– \$0.70	\$2.80
\$4.00 / gram	– \$0.80	\$3.20

♦ OWN IT OUTRIGHT

Complete your lease and the licence is yours. No rental fee. No profit share. 100% yours.

Daily Volume Scenarios

Based on a \$3.50/g average margin, a 30-day month, and worst-case Tier 3 overhead (\$368/mo: \$169 rental + \$199 subscription).

DAILY SALES	G/MONTH	GROSS MARGIN	BUDSTACKS 20%	YOUR 80%	NET/MO
50g / day	1,500g	\$5,250	– \$1,050	\$4,200	\$3,832
100g / day	3,000g	\$10,500	– \$2,100	\$8,400	\$8,032
200g / day	6,000g	\$21,000	– \$4,200	\$16,800	\$16,432
350g / day	10,500g	\$36,750	– \$7,350	\$29,400	\$29,032
500g / day	15,000g	\$52,500	– \$10,500	\$42,000	\$41,632

* Overhead = \$169 licence rental + \$199 Tier 3 subscription. Lower tiers reduce overhead and improve net profit.

THE LEASE-TO-OWN ADVANTAGE

Once you complete your lease and own your licence outright, the 20% profit share drops entirely — and so does the \$169/month rental fee. At 500g/day, that's an extra \$10,500 per month back in your pocket. Every month. Forever.

OWN YOUR LICENCE = KEEP 100% OF YOUR PROFITS = NO RENTAL FEE. EVER.

CHAPTER
4.1

Choose Your Tier

After your trial period, every operator selects a subscription tier that matches their growth stage. Every tier includes your core storefront — higher tiers unlock the tools that drive traffic, retention, and revenue. You can move up a tier at any time as your store grows; there is no lock-in.

STOREFRONT LICENCE RENTAL FEE: \$169/MONTH — APPLIES ACROSS ALL TIERS DURING THE LEASE PERIOD

TIER 1	TIER 2	TIER 3
STARTER	GROWTH	FULL SUITE
\$99 /mo	\$149 /mo	\$199 /mo
Launch your store	Scale your audience	Dominate your market
		MOST POPULAR

Max total monthly overhead (subscription + \$169 rental): Tier 1 = \$268/mo • Tier 2 = \$318/mo • Tier 3 = \$368/mo. Own your licence outright and the rental fee disappears entirely.

- 8 Go Live**
Publish your store. Your 90-day trial (Lease-to-Own) or 3-month Tier 3 access (Outright) begins immediately.

CHAPTER
6.1

Built-In Compliance &

Every Budstacks storefront is built medical-grade compliant from day one. Compliance is not an add-on — it is embedded in the platform architecture, so operators can focus on running their business rather than building compliance infrastructure themselves.

This applies equally whether you hold an Independent Operator Licence or are operating under the Lease-to-Own Programme. All regulated activity remains subject to applicable local laws, licensing requirements, and Dr Green platform policies.

ENTERPRISE-GRADE SECURITY — BUILT IN

- ✓ AES-256-GCM encryption for all credentials
- ✓ GDPR-compliant cookie & consent management
- ✓ Immutable audit logs & automatic PII redaction

COMPLIANCE FEATURES

- KYC verification gating on every store
 - Medical consultation questionnaire
 - Geo-gating for restricted regions
 - Cookie & GDPR consent management
 - Immutable audit logs, automatic PII redaction
 - Role-based access (Tier 2+)
-
- ✓ True multi-tenant isolation — your data is yours alone
 - ✓ HMAC-SHA256 webhook verification with replay protection
 - ✓ Modern stack: Next.js, PostgreSQL, Redis, S3

COMPLIANCE NOTE

A Digital Key or storefront licence is not itself a medical, financial, or legal authorisation. All regulated cannabis activity must be conducted in accordance with local laws and platform policy.

CHAPTER
6.2

How Payments Work

Every Budstacks storefront settles payments automatically and directly to the operator's crypto wallet — fast, secure, and borderless. There is no manual invoicing and no waiting period: your 80% share (during a lease) or 100% (as an outright owner) is calculated and paid on every transaction.

Payment methods available scale with your subscription tier, with expanded fiat and stablecoin options unlocked from Tier 2 upward.

PAYOUT FLOW

ACCEPTED PAYMENT METHODS

- Bitcoin (BTC) — all tiers
- Euphorium (TCN) — native platform token, all tiers
- Ethereum & USDT — Tier 2+
- Fiat card via Pay-Inn — Tier 2+
- Signed, replay-protected payment webhooks — Tier 3

**Profit share applies only during a Lease-to-Own agreement. Independent Operator Licence holders and operators who have completed their lease keep 100% — step 2 does not apply.*

This Isn't Just Local — This Is Global

Behind Budstacks is the Dr Green global network — already operational across Africa and expanding fast. When your store goes live, you are not just selling locally. You are positioning inside a worldwide marketplace with live supplier inventory, cross-border crypto payments, and a platform built to scale with every new jurisdiction that opens.
